Subject: Powertech in situ mining in SW South Dakota

Dear Valois,

I am writing to express my opposition to the proposed Powertech uranium mining project near Edgemont, South Dakota. I am out of town and was unable to attend the hearings held in Rapid City at the Ramkota motel on May 8 and 9 or I would have been there in person to express my opposition.

I live in a subdivision near Blackhawk, South Dakota which depends on the Madison and Deadwood aquifers for our water supply. Given the history of mining companies in South Dakota leaving a huge mess for state and federal government to clean up does not inspire my confidence in the Powertech proposal. I don't want to take a chance on polluting our drinking water for a few bucks in uranium mining.

If the wastewater produced by Powertech's "in situ" process is safe let's have the executives of Powertech drink a glass of that slop every morning and then I'll be convinced it really is ok for the mine to proceed. Until that day I am adamantly opposed to allowing Powertech to proceed.

Sincerely yours,
